HERE IS MASTER PLAN For Borough. "We think the lost desirable and efficient ay to grow is by improving hat we have, rather than ex-

what we have, rather than expanding it."
That is the philosophy for the future of Princeton — until 1980 — as set down by the new Borough Master Plan (see map, page 3), in preparation for two years by the Planning Board and Raymond & May, planning consultants. It was released this week.

All Borough residents will receive, later this week, a concise "Highlights" with a bright and graphic map, Next Tuesday, May 16, at 8 p.m. in Borough Hall, citizens will be invited to comment on the plan to the Planning Board in public hearing.

Full copies of the Plan are available for inspection in the Princeton Public Library and in the engineer's office, Witherspoon Street.

—Continued From Page 1 parking on major streets would gradually be eliminated, as these garages are built.

Total floor space in new buildings would be limited to one and one-half times the size of the lot (present limit is three times), and the height of new buildings limited to four stories.

Street would be abandoned as useless.

The Board suggests that Clay Street be shut off to traffic, except for a narrow service drive. The additional land would be used for enlarged playground space for children who live in Hageman Homes. The basketball court at the corner of Clay, will probably become a parking lot.

In the northwest corner, in a low plot of land flowing into the Township, another park would be set aside.

If the Seminary ever gives up its playing field next to Marquant Park, this would be added to Marquand. Nassau Park, where Mercer, Alexander, Stockton and Nassau will meet, will also be enlarged, and so, eventually will park lands around the new Borough Hall.

Who Complains? "I am opposed because 1 think the present ordinance is enough," said Dr. Ellwood Godfrey, who used to sit on Council but who sain the audience instead on Tuesday night.

"It's the responsibility of the individual to complain about bad conditions, and this ordinance shifts responsibility from the individual to government. It increases the cost of government. An individual who lives in a substandard house ought to be man enough to get up and complain."

"It has been alleged," replied Mayor Patterson, "that the voluntary system hasn't worked."

NEW STORE OPENS
For Marsh's P h a r m a c y.
What a pleasure it is to walk
into a bright-faced, shiny new
store! The branch store of the
Marsh Pharmacy, in the new
Montgomery Shopping Center
on Route 206, is just such a
happy spot.
It's a branch, you know, of
the century-old Marsh's at 30
Nassau Street. That store remains, for your in-town shopping convenience.

The new store — well, first we'll tell you how to get there. Drive north, from Princeton, on Route 206, crossing 518. Let the new brick Buxton's be your guide. If you set your sights toward what looks like a shopping center on up the highway, you'll find yourself at the IBM warehouse or Princeton Cliemical Research.

The Montgomery C c n terdriveway sneaks up on you because the Center itself faces away from Princeton toward the north. So slow down, right after 518, and turn right, as to Buxton's.

Well, here in suburban Marsh, so to speak, you'll find a rather different kind of store from the one on Nassau. The same scrupulous care for prescriptions, naturally, and the same good, sturdy supply of drug sundries.

But, in addition, there is the kind of merchandise that the first order of husiness at the new tranch of the Marsh Pharmacy in the Montgomery Center. Casino Royale (opens Friday) This is the film that
bored the London critics, delighted the provinces a n d

It s an extravagant, seny spy
spoof, teaming with impersonators of James Bond, Keystone

The finale is a brawl involving
the cavalry, parachuted Indians and every variety of may-

Peter Sellers, David Niven,

A Man and a Woman (now playing). This French film won the grand prize at the 1966 Cannes Film Fesival. It contains a love story that is simply, refreshingly photographed in fine color, with occasional touches of black and white and sepia tones to make it a bit on the different side.

Anouk Aimee is cast as a widow who meets Jean-Louis Trintignant, a widower, one Sunday as they are visiting their children at a boarding school. She tells him she works in the technical end of films and that she was once married to a stunt man who was killed while performing for a film. Trintignant later explains that he is a race track driver. After an accident, his wife's nerves snapped, and she committed suicide.

The running tlme (102 minutes) is a little long, but the cast is excellent and Claude Lelouch's direction is of unusual quality. The musical score is quite impressive. (English titles).

### Ask An Expert

The two young men who are partners in Princeton Antiques are specialists in Tiffany glass, and if you have any questions, or just want to learn.

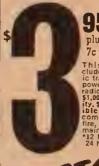

Robert Eugene, one of the partners, has bought for museums and private collectors all over the country and is known to Tiffany collectors as a prime authority.

Donald O' Neill, the other partner, will explain for you the techniques behind Tiffany artistry and will show you how light and motion can make the glass come. There are also books in the shop which you may examine.

Besides the Tiffany pieces, Princeton Antiques has gold jewelry from a half-century ago . (or longer: some are 100 years old). Many are gold bar pins, some delicately etched, others carrying a single stone. There are flower or bow pins, perhaps with pearl blossoms or a spray of garnets.

If you like the durability of wrought iron, but don't care for squiggles, Nassau Interiors suggests a round wood-finish table with four yellow chairs composed of rods instead of curls. Each chair swiveles, each chair is cushioned with a gay floral pad, and the whole would be just right for a contemporary house.

NEW POST OFFICE?

One Step Farther, "Princeton is such a problem child!" exclaimed Arthur Parsons of the Post Office Department Monday night after he had lined up figures and facts for the Township Planning Board.

The Board seemed to agree: it approved the idea of a 35,000 square foot main post office for Princeton on a five acre plot on North Harrison Street, north of Terhune.

The Township Zoning Board must still grant a few variances, (side yard especially) and it will be 90 days before Mr. Parsons has complete working drawings of the building (contemporary design, not Colonial) and he has to convince Federal officials that a post office needs all that land, Then plans must be put out to bid. We are very concerned about these calls. And we are glad that progress is being

made.

But should you receive any such calls, the following guidelines provide a very effective way for you to stop them:

1. Hang up

if the caller does not say anything.

at the first obscene word.

if the caller does not identify himself

to your satisfaction.

Remember, you are in control of your phone, You can end any conversation simply by hanging up.

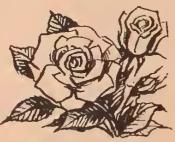

2. Don't keep talking to the caller—what he really wants is an audience. Don't be that audience.

3. Call us at your Telephone Business Office if the calls persist. We have representatives who are trained to investigate, identify, and help the police in the apprehension of these callers. By keeping these hints in mind, you can usually discourage someone from continuing to call you.

# The Facts Regarding The Current Strike By The Carpenters

During the past 9 years the Union wages for Carpenters have increased an average of 4.8% per year, and are currently \$5.35 per hour including fringe benefits or \$214.00 for a 40-hour week. This schedule of increments has maintained a reasonably sound market in commercial and institutional work; although virtually all residential work has been lost to the Open Shop segment of the construction industry.

This year we were presented with demands for an increase in wage rate and fringe benefits of 26%, together with changes in working rules which add substantially to the cost of the end product by instituting featherbedding practices, and which benefit relatively few members of the Union. The proposed changes also incorporated increases which are largely indeterminate by industry standards.

During the several meetings between the negotiating committees for the respective organizations, we presented an initial offer of an increase of 5%; this was refused by the Union Committee and after considering informal compromises the Committee for the Association made a final offer of 9 1/3% contingent upon elimination of any inflationary changes in working rules and no work stoppage. This offer was rejected by the Union Membership on May 1, 1967. All Association projects have been struck by the Carpenters, and supervisory employees have been removed from a number of projects.

We regret the inconvenience to owners having current projects under construction, as well as the costs being sustained by our members and the loss of income to families of the members of the local Union. However, resistance to acceptance of the extravagant demands seems to be the only recourse in a National political climate which deplores inflation on one hand and encourages Union excesses on the other.

When Johnny came marching home...

We helped him buy it.

As a matter of fact, since we were established 50 years ago in 1917, we have helped thousands of Johnnies to buy their own homes. That's what it's all about at Princeton Savings. Local people save their dollars and earn the area's top dividends and local people borrow these dollars to buy or improve their homes. It's called "Round Robin Capitalism" and it works for Princeton and for you.

The GREATEST . . . BEST many times have you seen and heard these words in ads selling service . . we admit, we've used them ourselves. But we have found that you can't sell a service with superlatives! We simply say that we think our TV Repair Service is merely better than adequate . . . it's only GOOD.

We have trained, com-petent technicians with years of experience in their profession to back that statement.

And most of all, we have many satisfied customers . . . which is, after all, our ultimate goal!

Do us a service . . . call 921-8500 today so that we may serve you!
